

HELIXFORGE FINOPS & COMPUTE COST OPTIMIZATION GUIDE

Company: HelixForge, Inc. (Austin HQ, Dublin, Singapore)

Fiscal Year: 2026 | Effective Date: February 1, 2026

Executive Sponsor: Chloe Bennett, Head of Cloud Infra (chloe.bennett@helixforge.example)

1. FinOps Overview

This reference guide outlines GPU and compute resource management standards for Platform Engineering and Applied Research.

2. Key Compute Rules:

- GPU Utilization: Production clusters must maintain $\geq 75\%$ rolling utilization.
- Dev Cluster Auto-Shutdown: Non-production environments auto-scale to zero at 20:00 local daily.
- Multi-Cloud Rates: Standard hourly allocations for H100 (.50/hr for 8x SXM5) and A100 (.00/hr for 8x SXM4).
- Checkpoint Sync: S3 Cross-Region Replication within 15 minutes to Dublin and Singapore.
